— OF —

St. Luke's General Hospital, Ottawa

TO INCLUDE THE MONTHS OF
AUGUST, SEPTEMBER AND OCTOBER 1898.

BEING THE FIRST THREE MONTHS
WORK IN THE HOSPITAL.

Containing also a List of Subscriptions received for the
Construction Fund, Maintenance Fund and Furnishing
Fund, the latter being supplied from the Ladies' Aux-
iliary Association. Also a list of Donations.

AUTHORISED BY THE BOARD OF GOVERNORS
ON NOVEMBER 9th, 1898.

FOUNDERS.

Henry Pulteney Wright, M. D., C. M.

By a gift of ten thousand dollars received by the corporation of St. Luke's General Hospital on the 10th day of April, 1899, from his widow, Marion Wright, the late Dr. Henry Pulteney Wright is constituted the first Founder of the Hospital.

He was born in Toronto on the 11th day of January, 1851, but was educated chiefly at the High School in Quebec, where his boyhood was spent.

Matriculating in Medicine at McGill University, Montreal, in 1867, he graduated in 1871, with honors, obtaining the Faculty's prize that year for the best final examination.

He began practice in Mooretown, Ont., but in 1872 he removed to Ottawa, where he soon secured a large clientele, and until the day of his death was occupied actively with professional work. His large hearted sympathy as well as his high professional attainments and mature judgment endeared him to all classes of the community.

In 1875 he was elected to the attending staff of the County of Carleton General Protestant Hospital and remained at active work there till he resigned with the entire staff in December, 1896, being chairman of the Medical Board at the time.

Being desirous of establishing a modern hospital for the scientific care and treatment of the sick and injured he threw his whole influence towards attaining that object and St. Luke's General Hospital founded absolutely on a nonsectarian basis is the outcome of his work, and in it he had the active support of his colleagues who had resigned with him.

Dr. Wright was elected chairman of the Medical Board on the organization of St. Luke's, a position he held at the time of his death, and by a donation of one thousand dollars to the funds of the institution he became a Life Governor.

Deeply interested in society work of a professional character, he was one of the founders of the Ottawa Medico-Chirurgical Society in 1874, and was its President in 1878 and in 1891.

He was elected President of the Canada Medical Association in 1888, and presided at the meeting in Banff, N.W.T., in 1889.

The Bathurst and Rideau Medical Association knew him as an active member, and the Ontario Medical Association likewise. Being a member of the British Medical Association he attended more than one meeting of that distinguished society in the motherland.

On the disruption of the Ottawa Medico-Chirurgical Society he became actively associated in the formation of the Medical Society of Ottawa, and was elected President in 1896 and 1897.

Dr. Wright died on the 29th day of October, 1898, soon after retiring, having spent the previous day, as was his wont, in arduous professional work.

Beloved, honored and respected by the entire community, it is a fitting tribute to his memory to find him the first Founder of St. Luke's General Hospital.

Life Governors.

HENRY P. WRIGHT—May 11, 1897.....	\$1,000
JOHN R. BOOTH—July 13, 1897.....	1,000

Secretary's Report.

The Board of Governors has the honor to report that, pursuant to the Act of the Ontario Legislature in its Session of 1897, and in accordance with the rights, privileges and powers granted therein to the Board of Governors and Corporation of St. Luke's General Hospital, Ottawa, a block of land was purchased as a site for the Hospital, extending from Elgin to Cartier Sts., and bounded on the south by Gladstone Avenue. For the present it was found that seven of these lots would be sufficient on which to erect the building, and for this portion of the property a sum of \$6,500 was paid.

Under the direction of Mr. E. L. Horwood, Architect, plans were soon completed for the erection of a Public General Hospital.

Mr. John R. Booth, the President of the Hospital, performed the interesting ceremony of turning the first sod on the 30th day of August, 1897, in the presence of an interested gathering of spectators, well-wishers and sympathizers of St. Luke's. Mr. John Mather, Chairman of the Building Committee, in a few words presented Mr. Booth with a silver Souvenir Spade, as a memento of the occasion, and the President duly turned the sod, making a short but feeling speech, indicative of his warm personal interest in the undertaking.

Contracts were soon entered into for the erection of the building as follows :

Masonry and Brickwork.....	Kennedy & Froude.
Carpentry	R. Cameron.
Plumbing and Steamfitting.....	McKinley & Northwood.
Plastering.....	A. Greene.
Painting and Glazing.....	J. Storr,

Electric Wiring and Speaking tubes.....	R. Anderson.
Elevator and Dumbwaiter.....	The Fensome Company.
Boilers.....	W. J. Campbell.
Fire-proofing	The Rathbun Company.
Electric Fittings.....	Garrioch & Godard.
Window Blinds.....	National Mfg. Co.
Marble Fittings, Tiling and Granolithic.....	Canadian Granite Co.

The amount of the contracts being \$32,934, and extras of \$602.84, making a total of \$33,536.84.

On the 22nd day of September, 1897, the corner stone of the Hospital was laid by the Premier of Canada, Sir Wilfrid Laurier, amid great enthusiasm in the presence of a large and distinguished audience. The Premier received from the President a presentation silver Trowel, and performed the ceremony at the close of a happy speech.

The building proceeded rapidly, and by the spring of 1898, was completed, though many details had to be concluded, in the way of furnishing and equipment, before the Hospital was ready for the reception of patients.

Owing to Their Excellencies, the Governor-General and the Countess of Aberdeen, having expressed a desire to officially open the Hospital, and the fact that their many engagements only enabled them to be in Ottawa for a specific time in midsummer, the formal opening took place somewhat hurriedly. However, an immense concourse of people assembled in response to a general invitation on the 6th day of July, 1898, and His Excellency the Earl of Aberdeen, in a speech full of good counsel and wide charity, and teeming with high aspirations, good hopes and warm congratulations, declared St. Luke's General Hospital open for the reception of patients.

Almost immediately applications for admission began,

but as the 1st of August was the day decided upon as that for the reception of patients, the public were notified of the fact through the press.

Before proceeding with the statistical records, one of the prime objects of this report, it may be well in this our first public announcement of work, to call attention to some important clauses in the Act of Incorporation, and to indicate how the Hospital is governed.

The Board of Governors consists of Founders, Life-Governors, Annual Governors, and Elected Governors and in this way the personnel of the governing body is subject to constant changes, in the way of additions to, or reductions from, its number, as well as annual alterations if thought desirable, and in this way a healthy circulation of material is provided in the Board-Room by new blood being introduced from time to time.

This will be better understood if we indicate in paragraphs the provisions of the Act in readable form.

(1) **FOUNDERS**,—Every person who gives to the Hospital the sum of ten thousand dollars (\$10,000.00,) becomes a **FOUNDER**, and he is given certain rights as follows :—(a) He is a member of the Board of Governors for life, and he can vote at all meetings of the Board, and he can appoint a proxy to vote for him during his absence. (b) He has the right of nominating a succession of persons to represent him in perpetuity on the Board of Governors after his death. Thus, he can nominate his son to be a Governor for life to represent his donation of \$10,000.00—then his grandson after the death of his son may be nominated by him as a Life Governor, and so on. A Founder can in his will or deed of gift nominate a succession of persons to sit at the Board of Governors and represent him and his donation. A family name can be perpetuated in no better way than in becoming a Founder of such an institution as St. Luke's Hospital.

(c.) There will be erected in the main hall of the Hospital a tablet for each Founder, and each tablet will have a heading "Founder's Tablet," and the tablet will give the name in full, and the date on which the donation was received, and the fact that he was one of the Founders of the Hospital.

(d.) The Board of Governors will have painted a life-size portrait of each Founder, with his name at the bottom of the frame, and this portrait, in oil, will always be hung in the Board Room of the Hospital.

(e.) Each copy of the Annual Report of the Hospital, issued every year, and every copy of the By-Laws, will contain a list of Founders, the date on which the donation was received from each and also a short biographical sketch of each Founder. Thus, every one who gives or bequeathes the sum of \$10,000, or over, to the Hospital, becomes a Founder, and he is given, for all time to come, the right of having representation on the Board of Governors and his generosity will be commemorated as shown, so that his children, grandchildren, his family, and the public for all time, will appreciate the Founder's munificence to this great public charity. It is admitted that the sum of \$10,000 is a large amount to give, and yet that amount from a very wealthy man is no more than \$100.00 from a man who has only a moderate income. In Montreal, we are informed, when the extension to the Montreal General Hospital was built, which cost \$250,000, there were ten persons who gave \$15,000 each—one who gave \$50,000 and one who gave \$25,000. Indeed were it not for the generosity of the wealthy, large charitable institutions could not be built. It is hoped the wealthy citizens of Ottawa and surrounding country will be generous towards St. Luke's Hospital.

(2) LIFE GOVERNORS.—Any one who gives \$1,000.00 to the Hospital, either in one amount or in successive amounts, will be a Governor of the Hospital for life, and he has the right

of voting in person or by proxy at all meetings of the Governors. Also, in every annual report to be published, there must be a list of all persons who are and have been Life Governors, and the date on which the \$1,000.00 was received from each.

(3) ANNUAL GOVERNORS.—Any one who gives \$100 to the Hospital will be a Governor for one year; if he gives \$200.00 he will be a Governor for two years and so on, and these amounts are credited to him so that when the total reaches \$1,000.00 he then becomes a Life Governor.

(4) ELECTED GOVERNORS.—The annual subscribers elect four Governors each year from their number, and every one is a subscriber who pays \$10.00 up to \$99.00 to the Hospital.

(5) CORPORATIONS.—Every Municipal Council which gives \$500.00 to the Hospital may select one of its members and nominate him as a Governor for one year.

(6) COMPANIES.—If any Corporate Company gives \$500 to the Hospital, in the name of the Company, then they may select one of their number and nominate him as a Governor of the Hospital for one year. If a company gives \$1,000 to the Hospital as a donation from some one person, then that person will be a Life Governor, that is, the Company may give the money to one of their members and when he gives it over to the Hospital he will be a Life Governor.

Besides these, the Medical Board has the privilege of electing annually four of its Members as Governors, to represent it on the Board of Governors.

When the Government grant is received a great anxiety will be removed from the Governors, as it will be such a source of financial assistance, but there can be no doubt that it is to the friends of St. Luke's Hospital in the City of Ottawa, and surrounding districts, that the Board must look appeal-

ingly for material and practical aid in subscriptions to the maintenance fund, if the Hospital is to be managed with a proper regard to efficiency, and to all that is implied in the management of a modern institution for the scientific care, nursing, and treatment of the sick and injured.

It is with great pleasure that in this first announcement we are enabled to state that a Training School for Nurses has been established in connection with the Hospital, under the guidance of Miss A. A. Chesley, our Lady Superintendent, whereby our pupil Nurses will receive a thorough grounding and education, during their course of three years, in all that pertains to their profession. This is being accomplished now by a series of Lectures by the Members of the Medical Staff, and Associates, and also by a continuous course of practical demonstrations, lectures, and weekly instructions by the Lady Superintendent.

The Board cannot allow such a favorable opportunity to pass without thanking in an especial manner the Ladies' Auxiliary Association of St. Luke's for their generous, timely, and practical aid, so readily given to this Board. The magnificent sum of money raised solely by their persevering efforts, whereby the Hospital was furnished and equipped, will always be thankfully acknowledged, and it is not too much to say that without this assistance the successful completion of the Hospital in time for the opening could not have been accomplished.

To all those who have so nobly aided St. Luke's General Hospital in its period of birth and infancy, by generous and timely subscriptions, as well as by words of encouragement and support, the Board of Governors takes this opportunity of tendering its warmest thanks and gratitude, and it will be the constant aim and endeavor of the Board to meet with the approval and support of the entire community.

The Board feels that a truly high and important trust

has been committed to them, namely, the foundation of a General Public Hospital, strictly non-sectarian in its principles, charter, and practice, in the Capital City of the Dominion of Canada, and the appeal made on these grounds to a philanthropic public they feel has not been made in vain.

Appended will be found a Statistical Report from the Medical Superintendent, and Lists of Subscriptions to the various funds.

Respectfully submitted on behalf of the Board of Governors.

R. W. POWELL, M. D.,

Hon. Sec'y.
